Profile

Determined to switch my gears from my decade of years of experience in testing to Software web development to keep challenging myself in ways I thought I ever could.

I am an upcoming full stack web developer with over 11 years of experience in manual and automated testing of desktop, web and mobile applications in healthcare and IoT domains.

Education

Bachelor of Engineering, Visvesvaraya Technological University, Bangalore

August 1998 — June 2002

Full stack web development bootcamp, University of California, Berkeley, Berkeley

November 2020 — May 2021

Projects

FRIENDZONE

Social media app developed by a team of 3

Users can sign-up, sign-in, find friendship matches based on gender and Interests, and connect
Uses Bycrypt, Cloudinary, Sequelize, Handlebars, Express and Multer

Deployment: @ my-friendzone.herokuapp.com

NOTE-TAKER

A nodejs application that can be used to write and save notes.

This application uses an Express.js back end and will save and retrieve note data from a JSON file.

Deployment: @ https://archanas-note-taker.herokuapp.com/
